

## COVID-19 Update

**June 29, 2021**

To Our Valued Customers, Representatives, and Suppliers:

First and foremost, thank you for your continued loyalty and trust in ONICON throughout this unprecedented pandemic. As an essential business, ONICON remained open with closely adhered to safety protocols in place to ensure the health of our workers and the timely delivery of products you depend on for your operations. As we navigate the backend of the pandemic, safety remains a high priority. The majority of our factory employees are fully vaccinated and we continue to be fully operational with restrictions based on guidelines set forth by the CDC and local governing bodies. We continuously monitor the local infection rates and will make adjustments as needed. To date, not a single case of COVID-19 has been transmitted at our factory and we intend to keep it that way.

We understand the critical role ONICON plays in your business, and we will continue to provide the same excellent level of support and customer service you expect from us. For any COVID related questions or concerns, please contact [marketing@onicon.com](mailto:marketing@onicon.com).

Sincerely,  
Bill Valentine  
General Manager  
ONICON Incorporated
